It is very hard to write a serious review for Cold Blooded Cube. This game is a joke. Maybe it's better not to call this a game, this looks more like a tutorial level for some game development program. (and the tutorial clearly did not end well)

It is a platform game where you walk with a little black cube, you do some walking you do some jumping and maybe fire a few bullets and thats it, this game will take about 5 minutes of your time to complete.

Did I mention it is riddled with bugs, collider bugs, hitbox bugs, jump bugs, they actually have an achievement where you have to exploit one of the bugs. Cold Blooded Bug would be a better name for this game.

and yes that was not a joke it actually has 4 achievements, very very simple achievements.

This game could become something but for now it's absolutly nothing.

Pros:

- Low Price
- It has some achievements

Cons:

- Alot of bugs
- Way to short
- Clumsy controls

This game is for all ages
