i scared for copyright strike. The game, while short, is mind blowing and a must-get for anyone looking for a deep, and quite surprsing ending. I'm not going to spoil it, but it's best just to experience it yourself. A quite beautiful experience, all in a ~13 minute game. I was scared there would be jumpscars, but there isn't. Go ahead and give it a try, it's an experience to be had.. we want a sequal. Who would buy this? - Someone who likes the style this artist puts forward or if you have good knowldge of anatomy and are well versed with drawing clean shapes and doing clean drawings.

Who should not buy this? - Someone who thinks after watching this video he will be able to immitate the painting that the artist/product displays on the store page. If you aren't good at drawing this won't help even with the painting stuff - which is exactly what this video is.

There is no hand holding.

There is no way to rate this video besides yes or no - so no it is.

What you getting here is 50 minutes of video about the technique the artist uses himself to paint quick drawings.

The artist himself is great at what he does but like he mentioned - its practice that will finally make the difference and that is where you have to decide if you want to pay \$5 for 50 minutes worth of practical and good advice as oppose to going to youtube and finding information over there. Practice needs realtime you not going to improve overnight.

If anything you will find which direction to go forth with this video, on the artist's website I believe this is listed as level iii advance for photoshop.

Money is non-refundable for obvious reasons - if you know the artist and want to support him go forth otherwise wait for prices to drop.

. If you played the second one, you'll definitely want to grab this, too. Not as good (by a little bit), but still one of the best in the genre.

Pixel Survivors is a nice little fun game.

It gets constant updates with new stuff and fixes.

It is not very complicated but thats why i like it.

Build around and see what works and what doesnt.

Totally recomend this game also for such a price.

Had lots of fun with it.. This game gives me Vietnam flashbacks. Let's say the game have potential. That's it.

- Orrible UI.

- Servers not adeguated to the number of players.

- Not even an explanation on what key press for play.

- Graphic / Animations are orrible. Didnt then even try?

- Gameplay seems to much "cheaty" and not responsive (even with only a little lag at 3 A.M)

At this state of development i would not raccomend this game to anyone.

-> 2/10 "An idea with a game -not- built around". Terrible. Just terrible.. i didnt like the way the game is played som may like it it. you have to try it to se if its for you. i refunded the game because was not what i expected. way to liner not my style of game sorry
